

TRUZZLE

*Variation Bois*

## Welcome to the TRUZZLE universe

TRUZZLE is a hardwood puzzle in relief, created and made in France, from various types of noble or precious woods of the region.

Its harmonious soft curves, associated with the magic of wood, provide pleasure but also will treat your senses and will allow you to discover the wonderful variety of our local vegetation.

### TRUZZLE ... a playful dimension

The complete change from the traditional puzzle (the image, the way pieces fit together...) will challenge the way you approach a solution, making you discover and develop new strategies. According to the difficulty level of your TRUZZLE, it will require from 30 minutes to several hours to rebuild the pattern.

### TRUZZLE ... a decorative dimension

The combination of contemporary contour lines and woodworking traditions makes TRUZZLE a work of art. The nuance of colors, textures and scents brings warmth to any corner of your home.

## TRUZZLE... an educational dimension

Using small sawmills in Franche-Comté, we carefully select hardwoods from broad-leaved trees, allowing you to enjoy the large variety of our forests and enabling you to identify the many different types of wood.

The wood we use comes from trees that require 60 to 180 years to reach maturity. Therefore, beyond all this beauty, there are up to two centuries of history that TRUZZLE is sharing with you.

Original, fascinating and full of the energy  
of this intriguing material  
Enjoy!  
Frank PARIS  
Artisan & Designer

## The major wood types we use :

Beyond its variety, each tree has its own characteristics (color shade, texture, grain, scent...) directly resulting from its environment and representing the memory of time passing.

Each tree, each piece of wood ...each TRUZZLE is therefore unique!

# Our Abstract Collection

## 6 Styles

*Animal, Astral, Atoll,  
Maille, Spirale, Vague.*

## few examples of styles

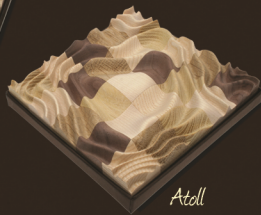

*Cubes: monocolour, chequered, multicolour,  
Strips: monocolour, two-colour, multicolour,*
